

EXPLANATION OF RESULTS

Due to the fact that the Brackets were not completed, the following criteria was implemented in order to determine the Final Results: 1. Win/Loss 2. Elapsed Time 3. Incompletions/Infractions 4. Reaction Time

If a Bracket is not completed for any reason, the Winners of each Run that was completed in the Bracket automatically advances in the Bracket even if that Run becomes the Final Run of the Bracket and thus takes precedence over ANY and ALL Losers of the Bracket, regardless of whether or not a Winner has a slower time than a Loser of another Run within the Final Run of the Bracket. Therefore, every Winner in the bracket is sorted by lowest Elapsed Time and the positions of 1st through the number of Winners are awarded those finishing positions accordingly.

Losers of the Bracket are then sorted by lowest Elapsed Time and the positions available in the completed Bracket below the awarded Winners positions are awarded those finishing positions accordingly.

In the event a competitor is unable to complete his/her Run in the Final Run of the Bracket, the Finishing Position will be determined by the following criteria: 1. Attempted Run/experienced a mechanical failure 2. Attempted Run but incurred an infraction resulting in Disqualification 3. Competitor unable to attempt the Run.

If a competitor attempts the Final Run of the Bracket but is unable to complete the Run due to mechanical failure that competitor will be awarded a 99999 Elapsed Time for the Run. Incomplete non-penalized Runs take precedence over penalized Runs in determining the outcome of Final Position scoring.

If a competitor incurs an infraction at any time during the Run, the Run is deemed null and void at the instance of the infraction and the Run will be considered incomplete and the competitor will be awarded a 99999 Elapsed Time for the Run. If more than one Competitor incurs an infraction resulting in disqualification, Reaction Time is the determining factor for considering the Final Position for those competitors since the Reaction Time occurred before the Run was deemed null and void.

If a competitor does not attempt a Run in the Final Run of the Bracket that competitor will not be awarded a position in the Final Standings.
